## **SEMESTER S3**

# DATA STRUCTURES LAB

| Course Code                     | PCEOL308 | CIE Marks   | 50             |
|---------------------------------|----------|-------------|----------------|
| Teaching Hours/Week (L: T:P: R) | 0:0:3:0  | ESE Marks   | 50             |
| Credits                         | 2        | Exam Hours  | 2 Hrs. 30 Min. |
| Prerequisites (if any)          | GBEST204 | Course Type | Lab            |

# **Course Objectives:**

- 1. To implement various linear data structures and applications using them
- 2. To implement various non-linear data structures and applications using them
- 3. To implement algorithms for various sorting techniques

| Expt. | Experiments   |
|-------|---|
| No.   | Laperiments   |
| 1     | Implementation of linear search and binary search *                                   |
| 2     | Implementation of Stack and linear Queue using arrays *                               |
| 3     | Implementation of Priority Queues, DEQUEUE and Circular Queues using arrays *         |
| 4     | Conversion of expression from one notation to another notation *                      |
| 5     | Implementation of various linked list operations *                                    |
| 6     | Implementation of stack and queue using linked list                                   |
| 7     | Polynomial addition using linked list *   |
| 8     | Polynomial multiplication using linked list.  |
| 9     | Implementation of doubly linked list operations.                                      |
| 10    | Implementation of circular linked list operations.                                    |
| 11    | Implementation of binary search tree – creation, insertion, deletion, search *        |
| 12    | Implementation of tree traversals – inorder, preorder, postorder                      |
| 13    | Implementation of sorting algorithms bubble sort, insertion sort and selection sort * |
| 14    | Implementation of Merge sort *  |
| 15    | Implementation of Quick sort *  |
| 16    | Implementation of BFS and DFS on graph *  |
| 17    | Implementation of hash table using your own mapping functions and observe collisions  |
| 1 /   | and overflow resolving schemes. *   |

<sup>\*</sup>Mandatory experiments

# Course Assessment Method (CIE: 50 marks, ESE: 50 marks)

## **Continuous Internal Evaluation Marks (CIE):**

| Attendance | Preparation/Pre-Lab Work experiments, Viva and Timely completion of Lab Reports / Record (Continuous Assessment) | Internal<br>Examination | Total |
|------------|--|-------------------------|-------|
| 5          | 25   | 20                      | 50    |

#### **End Semester Examination Marks (ESE):**

| Procedure/ Preparatory work/Design/ Algorithm | Conduct of experiment/ Execution of work/ troubleshooting/ Programming | Result with valid inference/ Quality of Output | Viva<br>voce | Record | Total |
|---|--|--|--------------|--------|-------|
| 10  | 15   | 10   | 10           | 5      | 50    |

- Submission of Record: Students shall be allowed for the end semester examination only upon submitting the duly certified record.
- Endorsement by External Examiner: The external examiner shall endorse the record

## **Course Outcomes (COs)**

At the end of the course students should be able to:

|     | Course Outcome   |    |  |
|-----|--|----|--|
| CO1 | Develop a time/space efficient program to sort a list of records and search for a given key in the record. | К3 |  |
| CO2 | Build programs using efficient data structure to represent given data.                                     | К3 |  |
| CO3 | Make use of appropriate data structure for various applications  | К3 |  |
| CO4 | Develop programs using linked lists and use them for various applications                                  | К3 |  |
| CO5 | Identify and use a suitable data structure and algorithm to solve a real world problem.                    | К3 |  |

Note: K1- Remember, K2- Understand, K3- Apply, K4- Analyse, K5- Evaluate, K6- Create

**CO- PO Mapping (Mapping of Course Outcomes with Program Outcomes)** 

|     | PO1 | PO2 | PO3 | PO4 | PO5 | PO6 | PO7 | PO8 | PO9 | PO10 | PO11 | PO12 |
|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|------|------|
| CO1 | 3   | 3   | 3   | 1   |     |     |     | 2   | 2   | 3    |      | 3    |
| CO2 | 3   | 3   | 3   | 1   |     |     |     | 2   | 2   | 3    |      | 3    |
| CO3 | 3   | 3   | 3   | 1   |     |     |     | 2   | 2   | 3    |      | 3    |
| CO4 | 3   | 3   | 3   | 1   |     |     |     | 2   | 2   | 3    |      | 3    |
| CO5 | 3   | 3   | 3   | 1   |     |     |     | 2   | 2   | 3    |      | 3    |

<sup>1:</sup> Slight (Low), 2: Moderate (Medium), 3: Substantial (High), -: No Correlation

# **Continuous Assessment (25 Marks)**

# 1. Preparation and Pre-Lab Work (7 Marks)

- Pre-Lab Assignments: Assessment of pre-lab assignments or quizzes that test understanding of the upcoming experiment.
- Understanding of Theory: Evaluation based on students' preparation and understanding of the theoretical background related to the experiments.

#### 2. Conduct of Experiments (7 Marks)

- Procedure and Execution: Adherence to correct procedures, accurate execution of experiments, and following safety protocols.
- Skill Proficiency: Proficiency in handling equipment, accuracy in observations, and troubleshooting skills during the experiments.
- Teamwork: Collaboration and participation in group experiments.

#### 3. Lab Reports and Record Keeping (6 Marks)

- Quality of Reports: Clarity, completeness and accuracy of lab reports. Proper documentation of experiments, data analysis and conclusions.
- Timely Submission: Adhering to deadlines for submitting lab reports/rough record and maintaining a well-organized fair record.

#### 4. Viva Voce (5 Marks)

• Oral Examination: Ability to explain the experiment, results and underlying principles during a viva voce session.

Final Marks Averaging: The final marks for preparation, conduct of experiments, viva, and record are the average of all the specified experiments in the syllabus.

## **Evaluation Pattern for End Semester Examination (50 Marks)**

#### 1. Procedure/Preliminary Work/Design/Algorithm (10 Marks)

- Procedure Understanding and Description: Clarity in explaining the procedure and understanding each step involved.
- Preliminary Work and Planning: Thoroughness in planning and organizing materials/equipment.
- Algorithm Development: Correctness and efficiency of the algorithm related to the experiment.
- Creativity and logic in algorithm or experimental design.

#### 2. Conduct of Experiment/Execution of Work/Programming (15 Marks)

 Setup and Execution: Proper setup and accurate execution of the experiment or programming task.

#### 3. Result with Valid Inference/Quality of Output (10 Marks)

- Accuracy of Results: Precision and correctness of the obtained results.
- Analysis and Interpretation: Validity of inferences drawn from the experiment or quality of program output.

#### 4. Viva Voce (10 Marks)

- Ability to explain the experiment, procedure results and answer related questions
- Proficiency in answering questions related to theoretical and practical aspects of the subject.

#### 5. Record (5 Marks)

• Completeness, clarity, and accuracy of the lab record submitted
